SEMINAR ABSTRACT

YEAR: - 2018

NAME OF THE SEMINAR: - Theories of Acid & Bases

DATE - 20/11/2018

Abstract of the Seminar: - "Theories of Acids and Bases".

The title of this theory is called as acid-bases Theory. The purpose of this theory is finding acids and bases with their strength in organic and inorganic fields of chemistry. This theory explains characteristics, properties, relation, structure, strength, neutralisation of acids-bases. And also it explains classification of acid-bases like covalent acid bonds, dative acid bonds, and ionic base bonds. Salt is defined as additional product forwarded by neutralisation. Strength of acids and bases defined in terms of electronegativity and electropositivity of atoms or molecules.
